

Match **Place**

Facilitating empowered FX risk management

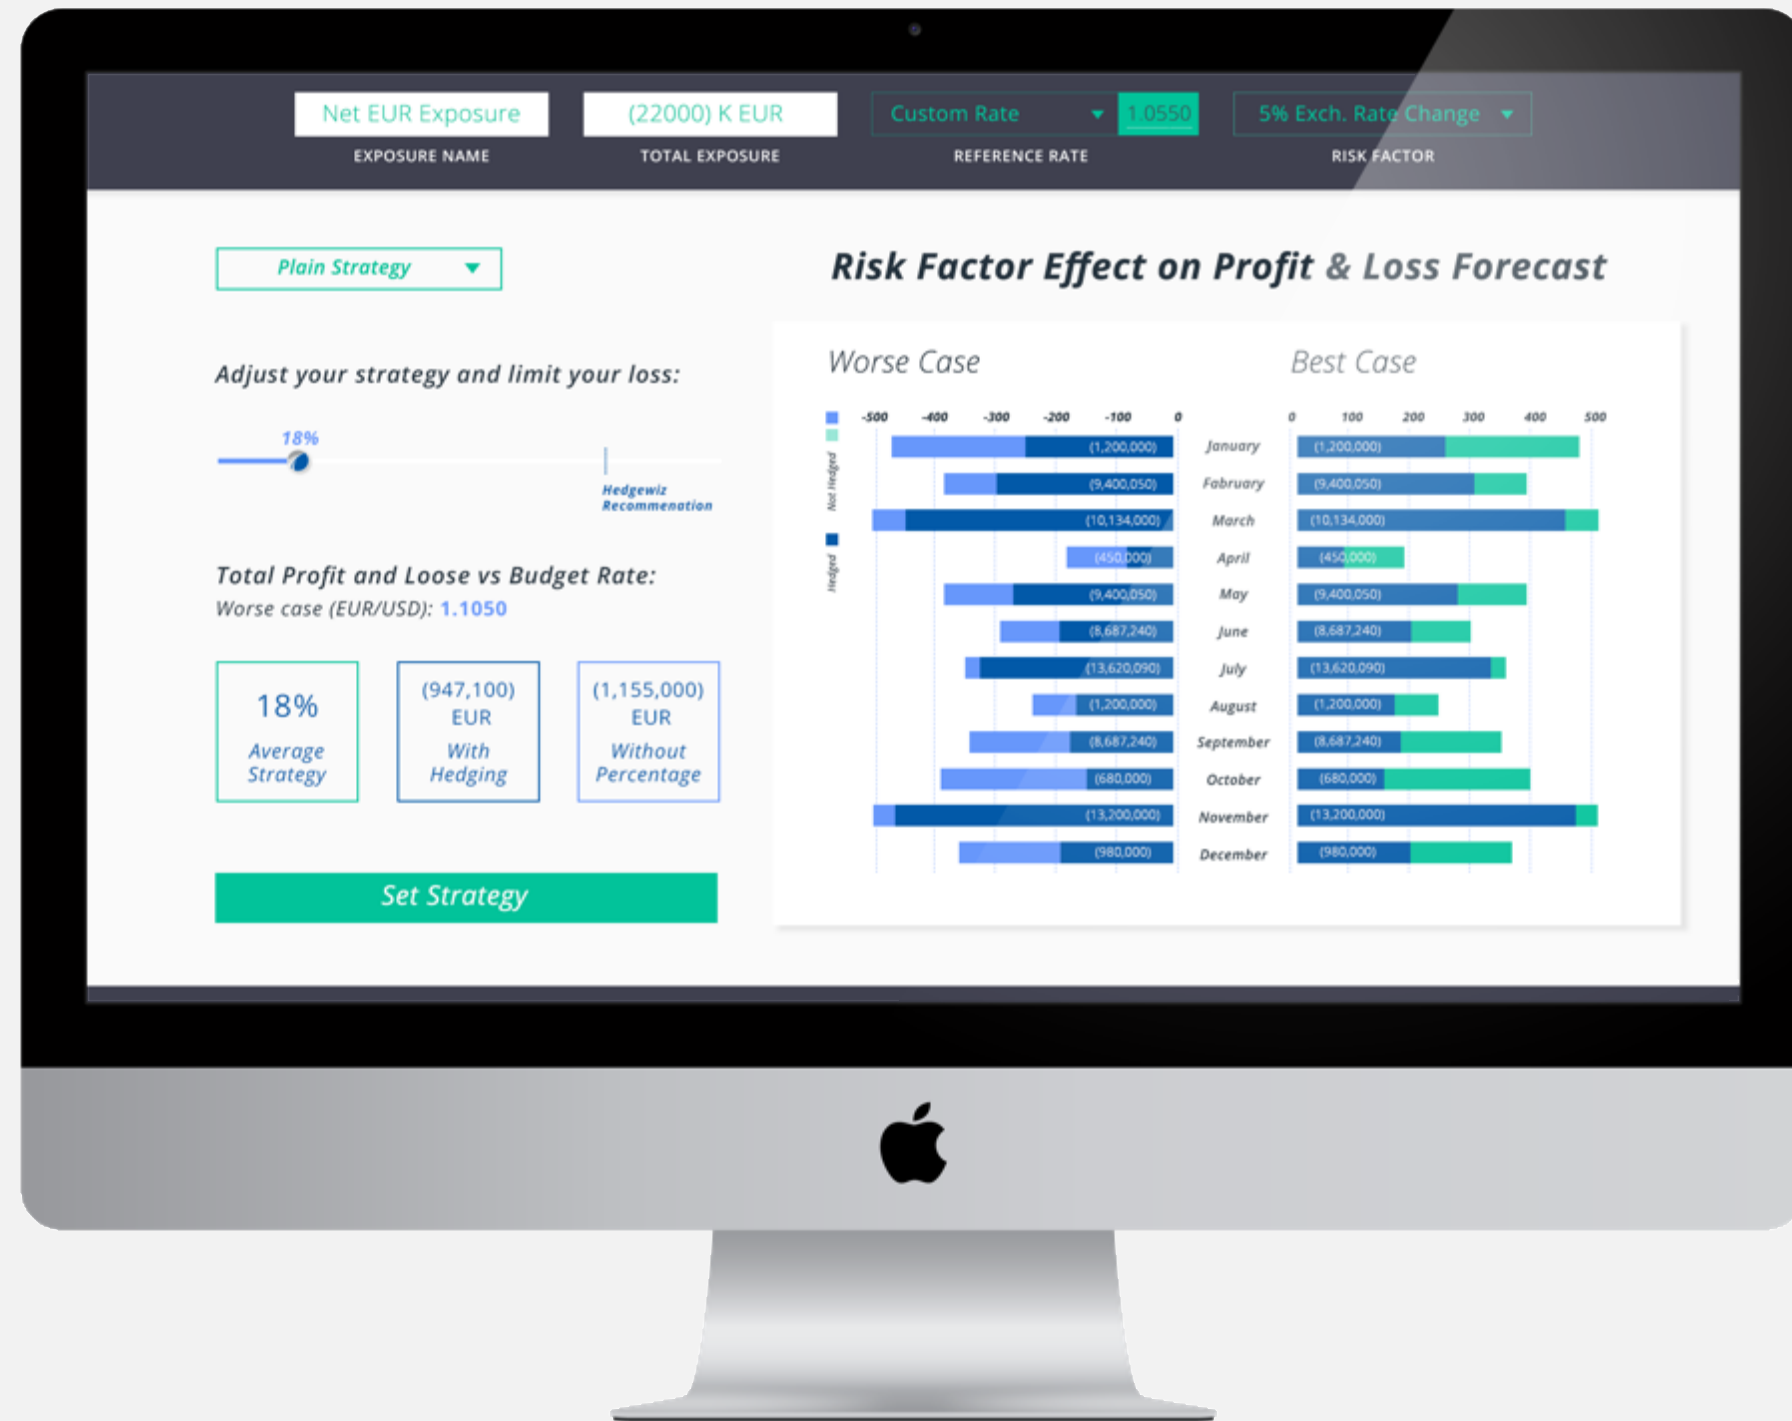

We Are FINTECH

MatchPlace helps companies to analyse and to manage currency risk with the Hedgewiz

*What does MatchPlace offer to
financial leaders*

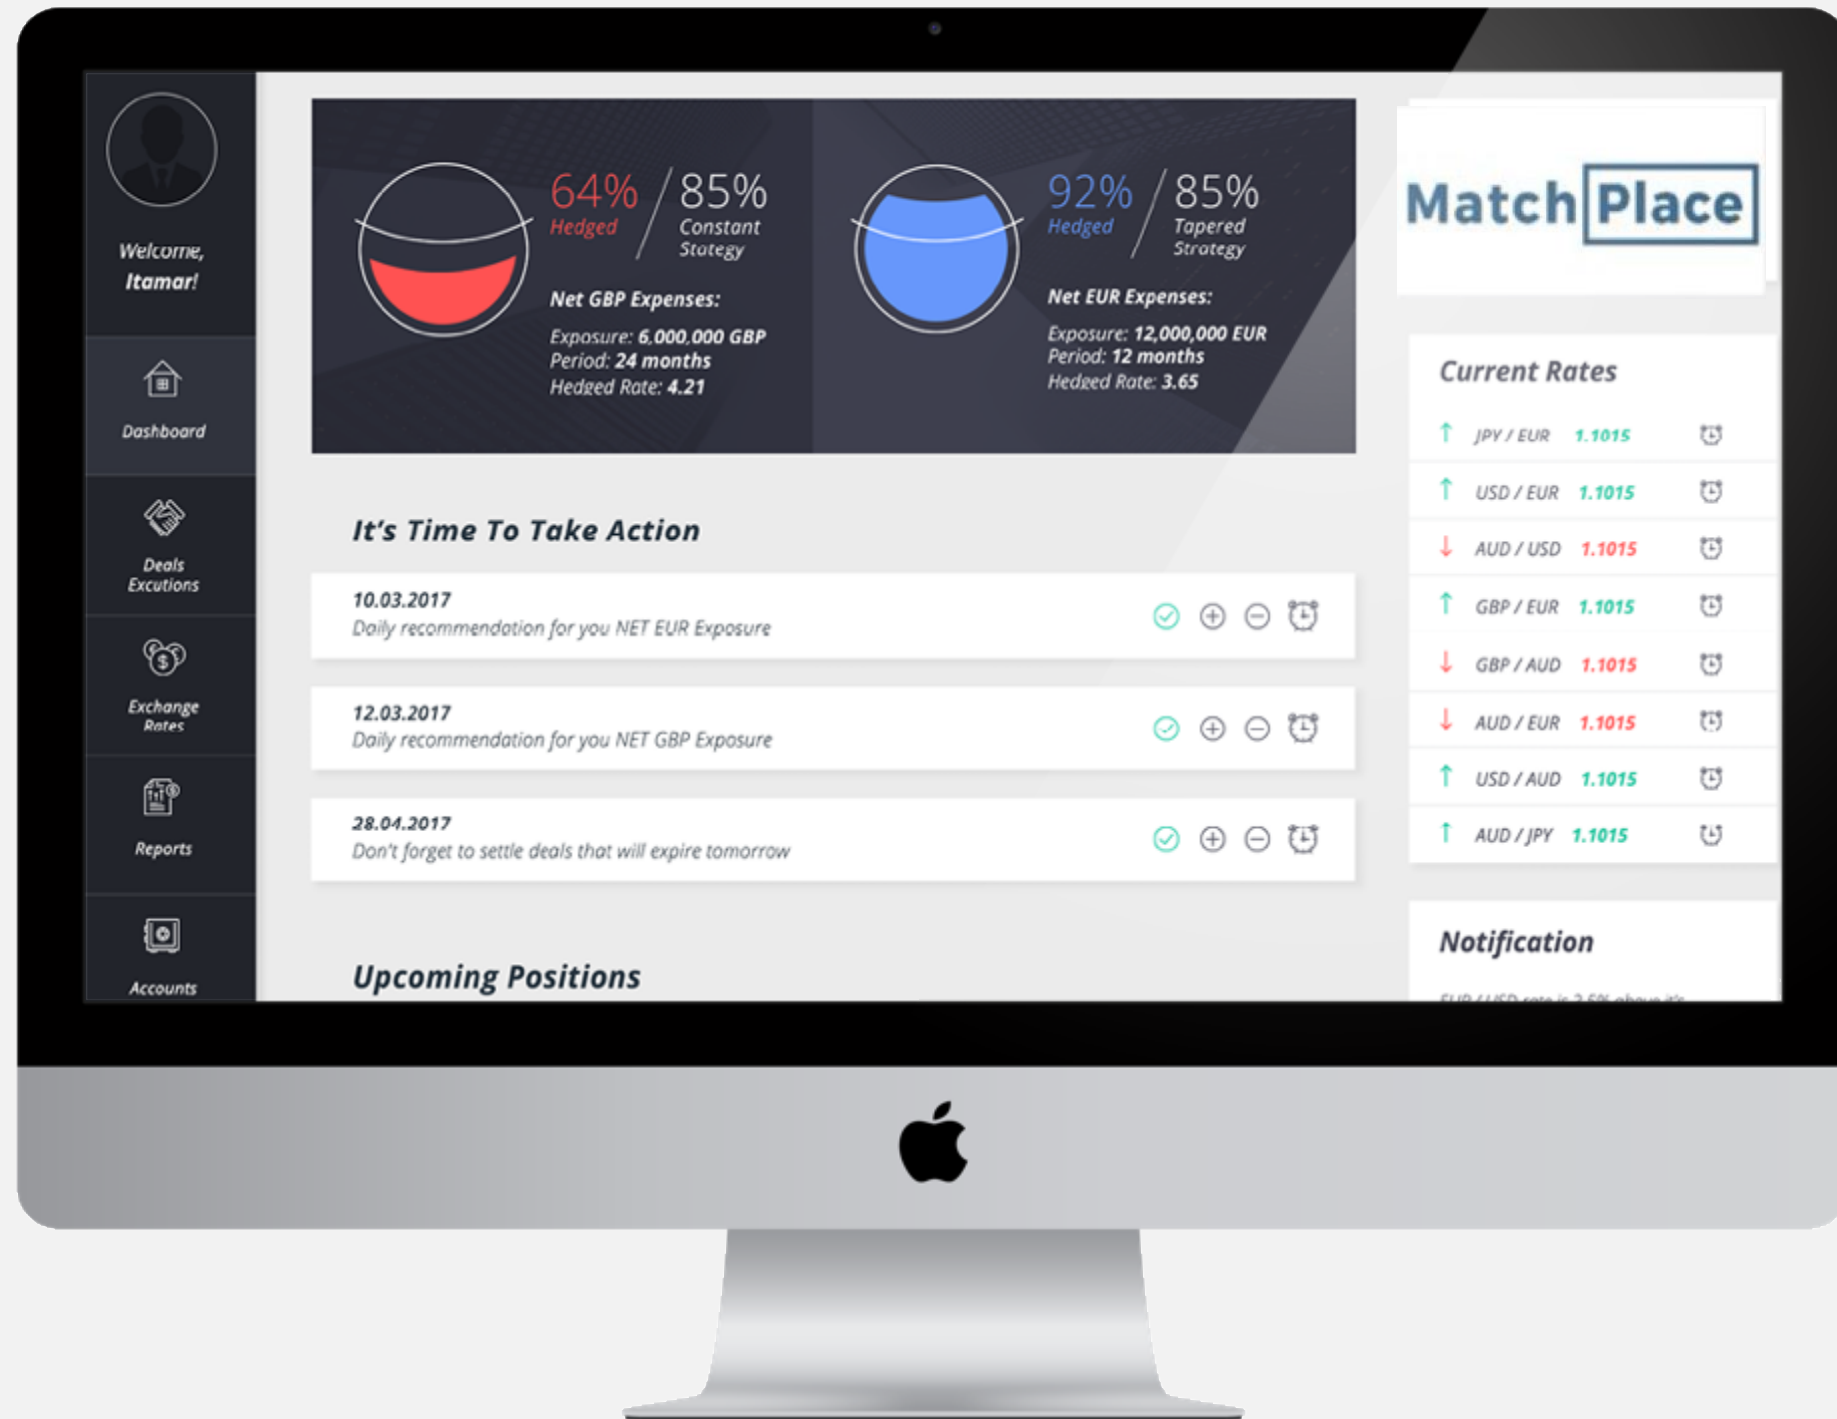

Insight into risk

Get clear vision of currency exposures and their impact on company's bottom line.

Use MatchPlace tools to design long term, structured hedging policy, based on company's needs.

Manage, monitor and control

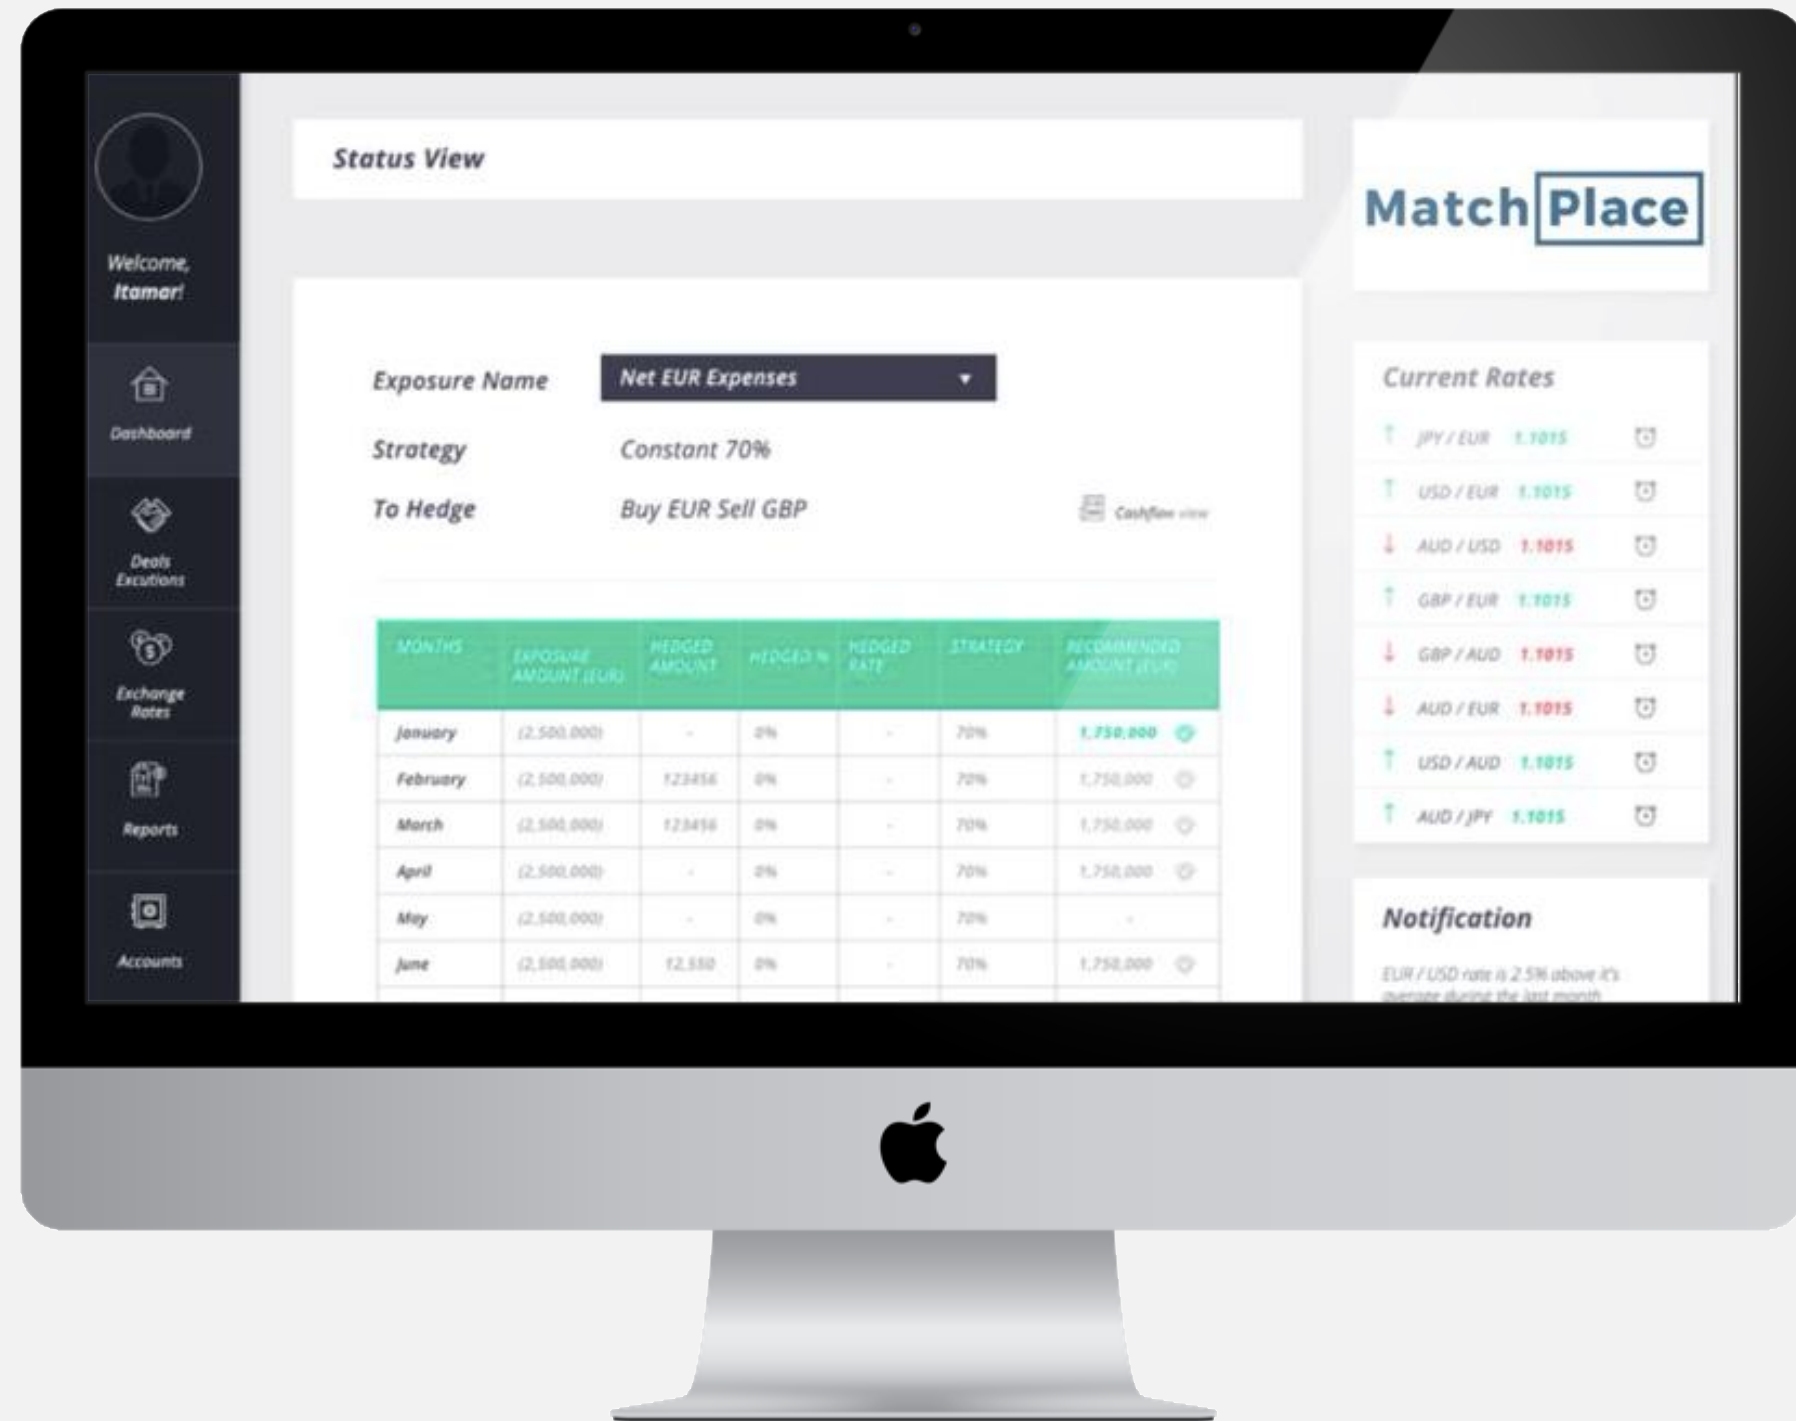

Monitor your exposures and manage your hedging activity with MatchPlace Hedgewiz dashboard.

Keep track with a real-time snapshot of exposures and hedging transactions.

Mitigate under-hedging and inaccuracy.

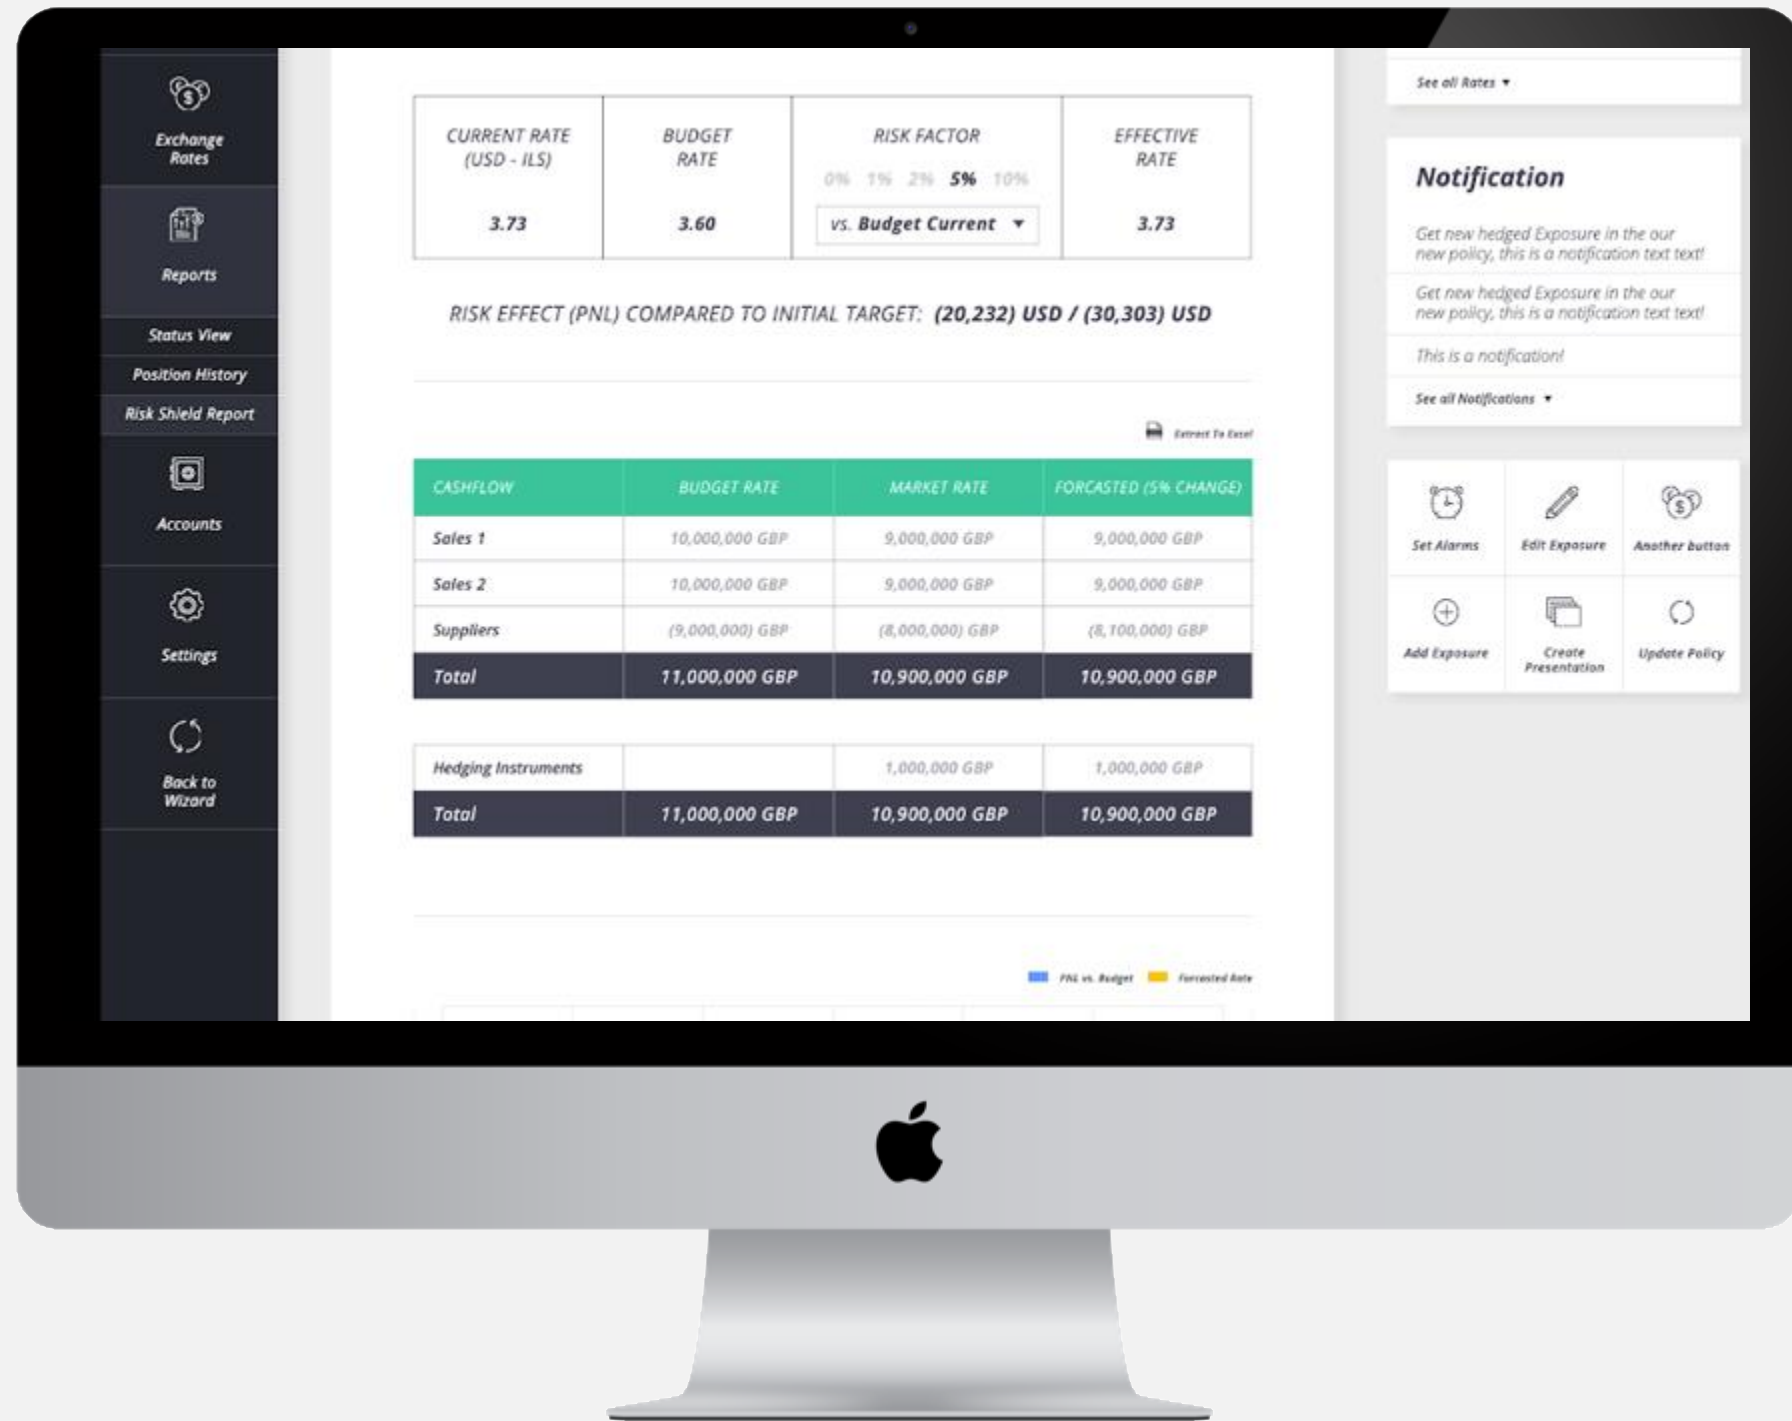

Current status, at a glance

Get at-a-glance insight into forecasted vs hedged activity, average rate for the current month and action items for additional hedging.

Get the information needed for the action being taken at the right time, for more cost effective and efficient hedging

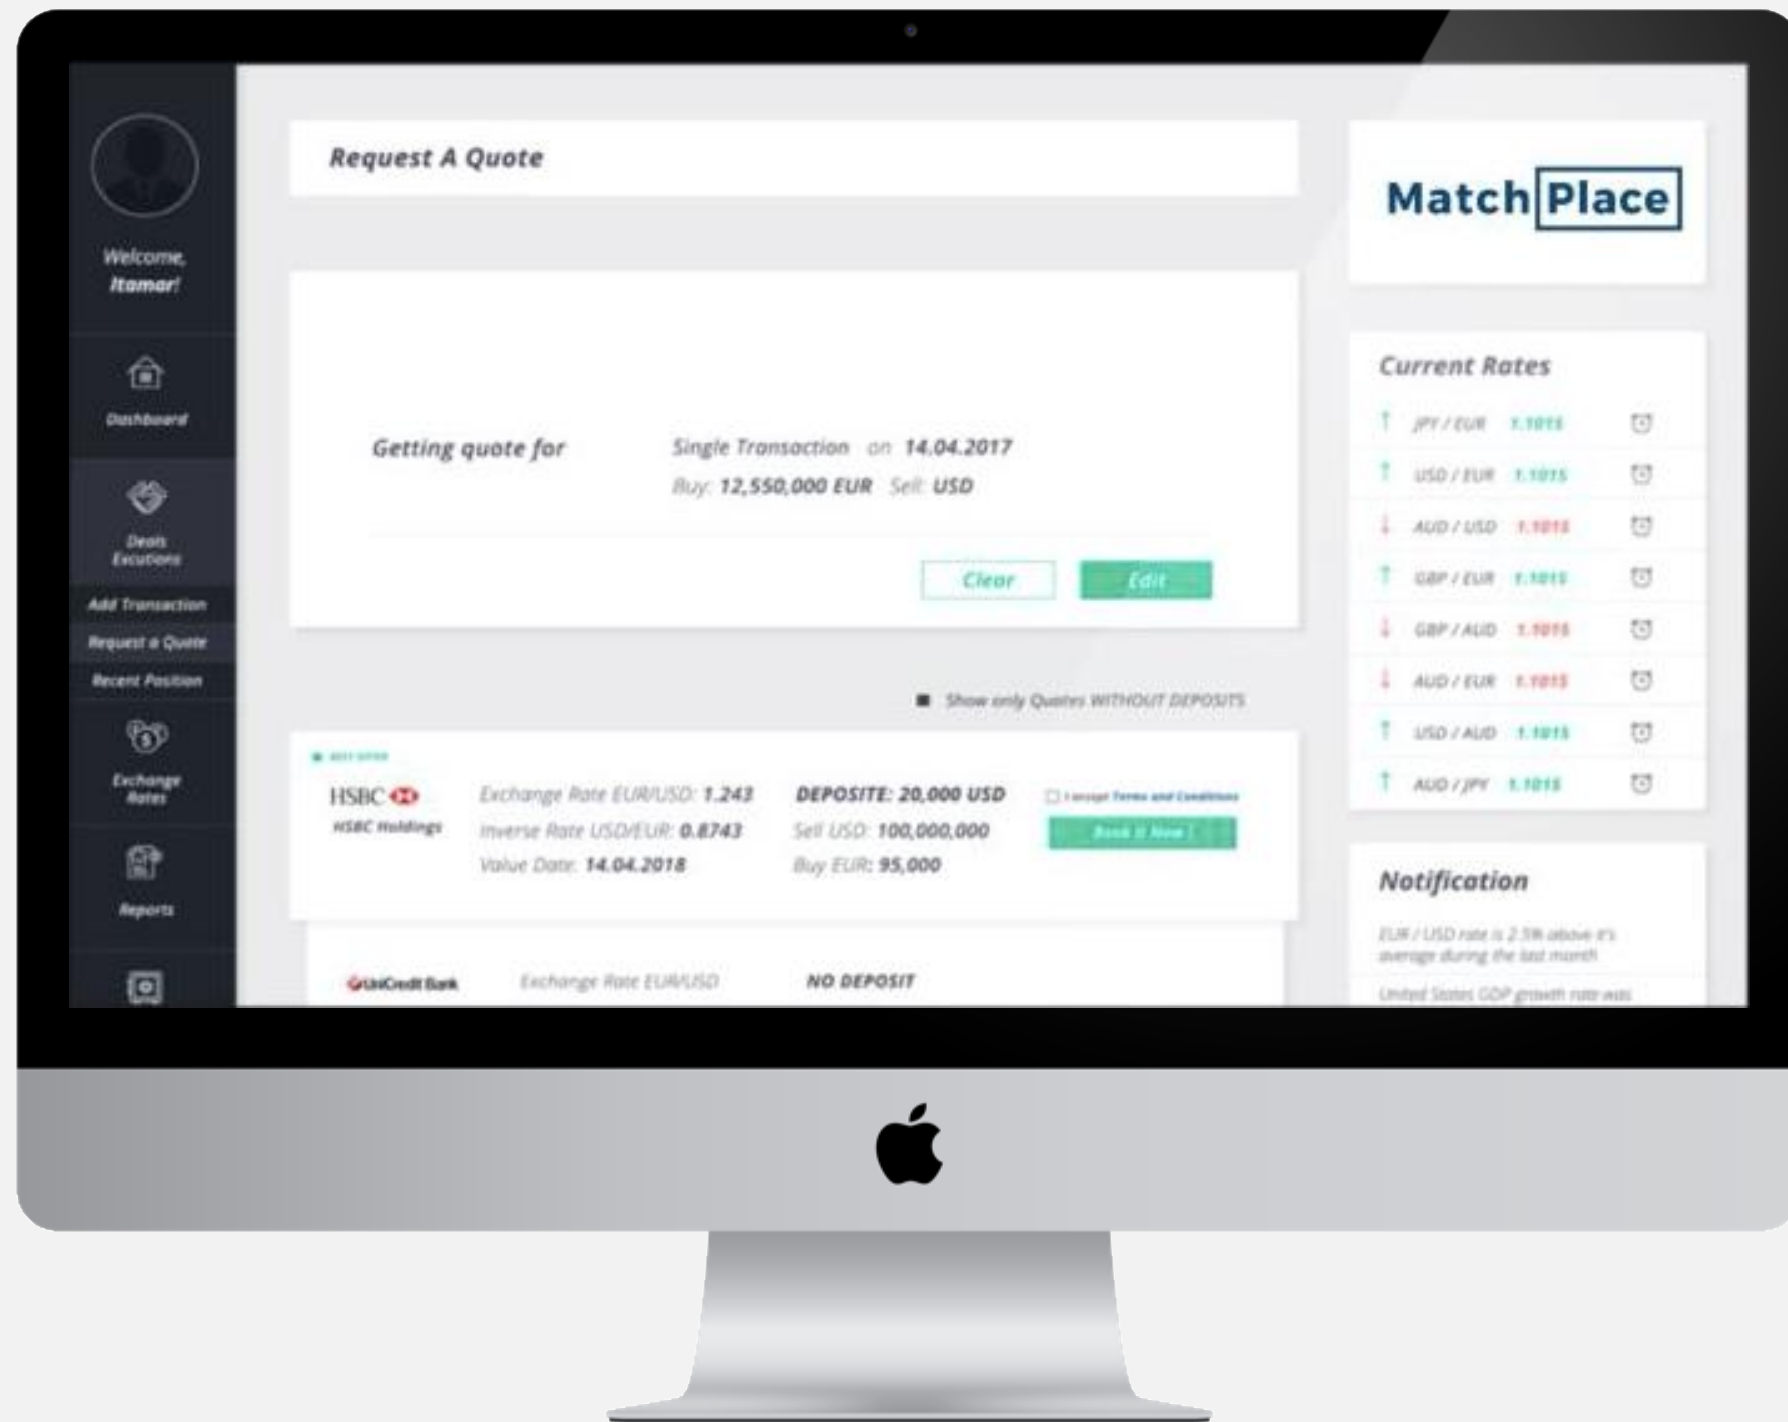

Review and reporting

Implement and review your hedging activity with MatchPlace reporting tools.

Monitor the unhedged risk and create clear and transparent management reporting to assure control over hedging process.

Easy execution or upload of transactions

Use our regulated FX partners for quick and easy on-line execution or use your own providers and easily upload your hedging transactions to stay updated.

MatchPlace benefits

Facilitates growth

Allows CFOs to enjoy advantages of hedging: increased forecast ability, reduce losses, benefit from business opportunities and support better company's growth

Provides stability

Experience budgeting, planning and reporting stability, regardless of fluctuations

Saves time

Takes care of the implementation of the hedging policy and reporting issues and reduces the hedging burden on the finance team
